Toul Kork, Phnom Penh

EDUCATION

Royal University of Phnom Penh

Bachelor of Computer Science in Information Technology | Expected 2028

2024 - Present

Instinct Institute

Short course frontend development

2024 - 2025

SKILLS

PROGRAMMING : TypeScript, PHP, Java

BACKEND : Express.js, Spring Boot, Laravel (Basic), REST APIs, JWT Authentication

DATABASES: PostgreSQL, MySQL, MongoDB

TOOLS & DEVOPS: Git, Docker, Docker Compose, Postman

LANGUAGE

- Khmer (Native)
- English (A2)

ABOUT ME

Computer Science student with a strong interest in backend development and practical experience building RESTful APIs and authentication systems. Currently working as a Teaching Assistant, contributing to the development of a full-stack academic journal platform. Eager to apply my technical knowledge, strengthen my software engineering skills, and contribute to real-world projects as a Backend Developer Intern.

EXPERIENCE

Teaching Assistant — Academic Journal | RUPP

Next.js | Express.js | Typescript | MongoDB | AWS August 2026

- Assisted in building a full-stack Academic Journal Platform with REST APIs, JWT authentication, OTP password reset, role-based middleware, and Redux Toolkit integration.
- Worked with the team and supported author, user, profile, category, submission, and article management features.
- Used Git/GitHub for collaboration and supported backend deployment on AWS EC2 with AWS S3 for file storage.

PROJECTS

Smart City IoT Project | Capstone project

Python | Fast API | ESP32 | Raspberry Pi 3 Jun 2026

- Developed responsive web dashboards using React, HTML, CSS, and Tailwind CSS.
- Integrated ESP32 devices for object detection and Raspberry Pi 3 for AI-based license plate recognition (LPR).
- Collaborated with team members to integrate IoT hardware, AI features, and backend services for smart city monitoring.

Ecommerce Website | Full-Stack Development

Next.js | Spring Boot | PostgreSQL Mar 2026

- Developed REST APIs for product, inventory, customer, and order management.
- Implemented JWT authentication, authorization, and API security.
- Integrated KHQR payment and Telegram notifications.
